

Our History

Brothers Milo and Ed Mazza founded Mazza Brothers in 1932. The company specialized in sheet metal work; siding and roofing; aluminum doors, windows and awnings; as well as heating and ventilation systems. In 1965, the company was incorporated as Mazza Sheet Metal, Inc. with Milo Mazza, Walter Kula and Joseph DeRose serving as corporate

officers. What was originally founded as a small sheet metal and roofing shop had evolved into a full service mechanical contractor. In 2007 the company name was changed to Mazza Mechanical Services, Inc. to better reflect its status as a full service mechanical contractor.

Who We Serve

- Industrial Manufacturing
- Office Buildings
- Municipalities
- Schools
- Food Processing Plants
- Restaurants
